ISIN CH0555289500 | Swiss Security Number 55528950 | SIX Symbol NKLTQ

Investors should read the section "Significant Risks" below as well as the section "Risk Factors" of the relevant Programme.

This Product is a derivative instrument. It does not qualify as unit of a collective investment scheme pursuant to art. 7 et seqq. of the Swiss Federal Act on Collective Investment Schemes (CISA) and is therefore neither registered nor supervised by the Swiss Financial Market Supervisory Authority FINMA. Investors do not benefit from the specific investor protection provided under the CISA.

In addition, Investors are subject to the credit risk of the Issuer and Guarantor, if any.

This document is not a prospectus within the meaning of article 1156 of the Swiss Code of Obligations (CO) or article 40 et seqq. of the FinSA.

An Index which contains Loan Instruments (as defined in the Index Rule Book) and/or leveraged Components causes the Components and thus the value of the Index and the price of the Product to respond disproportionately to fluctuations in the price of the Component(s)' underlying assets – both up and down. Thus, the Index and simultaneously also the Product may be exposed to high upwards and downward fluctuations. Further information can be found in the section "Significant Risks" below.

I. Product Description

Product description

The Tracker Certificate (the "Certificate") replicates the price movements in the Underlying (adjusted by the Units, the Management Fee, the Calculation Agent Fee, any expenses and taxes, and, as the case may be, the FX Rate) and is therefore in terms of risk comparable to a direct investment in the Underlying. At the Redemption Date, the Investor will receive a Cash Settlement in the Settlement Currency, as further described under Redemption. If the Certificate's value falls below a pre-defined Stop Loss Level during its lifetime, a Stop Loss Event will be triggered.

Index description

The Underlying is a dynamic, actively managed index (the "**Index**") which is discretionarily managed by the Index Sponsor and calculated by the Index Calculation Agent. The components of the Underlying (the "**Components**") may – subject to Index Calculation Agent's veto right – be rebalanced by the Index Sponsor on a regular basis. The Index Sponsor determines and is responsible for the composition of the Index and may add, replace or remove Components in accordance with a set of predefined rules set out in the Index Rule Book "Supreme Collection on Cannabis Index", Version ID UBY89, dated 16.07.2020 (the "**Index Rule Book**").

Objective: The investment objective of the AMC is to achieve long-term capital growth by investing in a basket of companies with significant business activities in the cannabis industry. The companies are selected using filters including cannabis industry focused business strategy, majority of revenue generated directly from the cannabis industry and proprietary quantitative analysis.

Universe: The Index universe consists of eligible Components and may include Cash Instruments, Shares, Bonds, Funds, ETFs, Futures, FX Forwards, Listed Options, Derivative Investment Products as determined by the Index Sponsor and subject to the restrictions defined in the Index Rule Book.

Leverage: The Index may include leveraged Components the details of which can be found in their individual product documentation. The Calculation Agent reserves the right to maintain a margin account for such leveraged Components. Additional information can be found in the section "Significant Risks" below and in the Index Rule Book.

Settlement of Components: Components may be settled within the Index other than in cash. However, unless otherwise stated therein, there will be no delivery of Components to the Investors other than in cash.

Distributions: Net distributions with respect to Components (after deduction of any expenses and taxes) will lead to an adjustment of the Index (as specified in the Index Rule Book).

The Index represents a hypothetical portfolio. There is no obligation on the Index Calculation Agent, the Issuer or any other party to purchase and/or hold any Components of the Index and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. The Index is merely comprised of Components, the performance of which will be used as a reference point for the purposes of calculating the value of the Index. The Issuer shall be free to choose how to invest or further proceed with any proceeds of the issuance of any of the Certificates.

References to any rebalancing of the Index or addition, adjustment, substitution, replacement or removal of Components should not be construed as imposing an obligation on the Issuer, the Index Calculation Agent or any person actually to acquire or dispose of any

securities, investments, assets or other property but are references to the change in, and relate solely to the calculation of, the value of the Index, which is relevant for the determination of any amount payable in respect of the Certificate.

Upon request, the Index Rule Book and the latest composition of the Index are available free of charge from the Lead Manager (Leonteq Securities AG, Europaallee 39, 8004 Zurich, Switzerland or termsheet@leonteq.com).

Fees

Distribution Fee	No Distribution Fee
Calculation Agent Fee (CAF)	0.50% p.a. The Calculational Agent Fee reduces the redemption amount subject to the holding period and has a negative effect on the secondary market prices. The Calculation Agent Fee will be paid quarterly on the Observation Dates.
Management Fee (MF)	1.00% p.a. The Management Fee reduces the redemption amount subject to the holding period and has a negative effect on the secondary market prices. The Management Fee will be paid on a regular basis on the Observation Dates.
Rebalancing Fee	A Rebalancing Fee is levied by the Index Calculation Agent inside the Index for each Component adjustment within the Index. The Rebalancing Fee represents a percentage amount of 0.12% of the notional volume of each of the transactions in the Components. Component adjustments exceeding a certain number per calendar year may be subject to increased Rebalancing Fees. For the avoidance of doubt, the Rebalancing Fee does not apply to changes in Units: in the Underlying. Market charges, such as e.g. stamp duty or execution costs incurred by a hypothetical hedging entity as determined by the Index Calculation Agent in its sole discretion, will always be charged in addition to the Rebalancing Fee.
Other Fees	Additional fees may be charged within individual Components (e.g. structured products) as outlined in the product documentation of the relevant Component available from the Index Sponsor upon request. Such fees may also be paid to the Issuer and/or to third parties such as the Index Sponsor.

Redemption

The Investor is entitled to receive from the Issuer, subject to an Extraordinary Termination, on the Redemption Date per Product a Cash Settlement in the Settlement Currency corresponding to the value of the Underlying on the Final Fixing Date adjusted by the Units_t, the Management Fee, the Calculation Agent Fee and, as the case may be, the FX Rate. This amount equals Value_t on the Final Fixing Date, where Value_t is calculated according to the following formula and reasonably determined by the Calculation Agent:

$$\text{Value}_t = \text{FX Rate}_t \times \text{Units}_t \times \text{Index Value}_t - \text{AMF}_t - \text{ACAF}_t$$

Index Value_t Means the official closing price of the Underlying on Scheduled Trading Day t as published by the Index Calculation Agent, and as reasonable determined by the Calculation Agent.

FX Rate_t Means the prevailing exchange rate on the Scheduled Trading Day t as reasonably determined by the Calculation Agent. The exchange rate is expressed as units of the Settlement Currency per one unit of currency of the Underlying (if both currencies are identical then FX Rate_t is equal to 1.0).

Units_t Means the notional units of the Underlying per Product on Scheduled Trading Day t.

Provided Scheduled Trading Day t is not an Observation Date:

$$\text{Units}_t = \text{Units}_{t-1}$$

If Scheduled Trading Day t is an Observation Date:

$$\text{Units}_t = \text{Units}_{t-1} - (\text{AMF}_t + \text{ACAF}_t) / (\text{Index Value}_{t-1} \times \text{FX Rate}_t)$$

Where Index Value_t means Index Value_t of the Underlying on Scheduled Trading Day t, adjusted by any costs incurred by the Issuer or a hedging party thereof for unwinding risk reducing hedging transactions relating to the Issuer's obligations under the Product, as reasonable determined by the Calculation Agent. Units_t are rounded in accordance with the Rounding Convention.

Following the adjustment of Units_t by AMF_t, AMF_t is reset to zero.

Following the adjustment of Units_t by ACAF_t, ACAF_t is reset to zero.

AMF_t Means the accrued management fees on Scheduled Trading Day t and is determined by the Calculation Agent as follows:

$$\text{AMF}_t = \text{AMF}_{t-1} + \text{Value}_{t-1} \times \text{MF} \times \text{DayCount}_t \quad \text{and} \quad \text{AMF}_0 = 0.00$$

ACAF_t Means the accrued calculation agent fees on Scheduled Trading Day t and is determined by the Calculation Agent as follows:

$$\text{ACAF}_t = \text{ACAF}_{t-1} + \text{Value}_{t-1} \times \text{CAF} \times \text{DayCount}_t \quad \text{and} \quad \text{ACAF}_0 = 0.00$$

DayCount_t Means the actual number of calendar days between (and including) Scheduled Trading Day t-1 to (and excluding) the current Scheduled Trading Day t divided by 360.

Initial Fixing Level (Index Value₀) Means the official closing price of the Underlying on the Initial Fixing Date as determined by the Calculation Agent.

Interim Payments The Index Sponsor may, subject to the approval by the Index Calculation Agent in its reasonable discretion, request the disbursement to the Investor of interest, dividend or other return on capital payments occurred in respect of a Component (the "Interim Payment") by sending a duly signed notice to the Index Calculation Agent identifying the payment date (any such date being an "Interim Payment Date") and amount (any such amount being an "Interim Payment"), provided the necessary cash at the Interim Payment Date is available. Interim Payment are Cash Settlements only. If a specific Interim Payment Date is not a Scheduled Trading Day, then the following Scheduled Trading Day will be deemed to be an Interim Payment Date. Any such Interim Payment will result in a corresponding reduction of Index Value.

Issuer's Termination Right The Issuer has the right to call all Certificates for early redemption (the "Termination Right") at any time with a 10 Business Days (prior to the respective Final Fixing Date) notice by announcement (the "Termination Announcement") on the Paying Agent's website, all in accordance with the General Terms and Conditions of the Programme. The Termination Announcement will specify the Final Fixing Date and the respective Redemption Date. Following the announcement, the Certificates will be redeemed on the Redemption Date for a value equal to the Value_t on the Final Fixing Date as determined by the Calculation Agent.

Investor Redemption Each Investor has an annual right, on 16 July for the first time on 16.07.2021 (such day being the Final Fixing Date; Following Business Day Convention will apply) to call the Certificates for redemption (taking into account any Minimum and/or Maximum Redemption Number, if such is applicable as stated under "General Information" herein), by delivering a duly completed and signed Redemption Notice to the Paying Agent in accordance with General Terms and Conditions of the Programme (notice to be received by the Paying Agent no later than 07.00 am CET on the 10th Business Day preceding the respective Final Fixing Date). Following such announcement the Certificates will be redeemed on the Redemption Date for a value equal to the Value_t on the Final Fixing Date as determined by the Calculation Agent.

Extraordinary Termination The Issuer has the right to call all Certificates with **immediate** effect, without prior notice (the “**Extraordinary Termination**”). Such Extraordinary Termination will prevail any Investor Redemption and/or Issuer’s Termination, if applicable.

The Issuer may exercise its right for Extraordinary Termination:

- a. based on Hedging Disruption and other provisions as set out in paragraph “*Termination and Cancellation due to Illegality, Illiquidity, Impossibility, Increased Cost of Hedging, a Hedging Disruption, Increased or Cost of Collateralization (COSI and TCM) or Changed Secured Financing Ability*” of the Programme; or
- b. if the agreement, or any part thereof concerning the Index, between the Index Sponsor and the Issuer and/or the Index Calculation Agent (or an affiliate thereof) is terminated; or
- c. if the Index in whole or the calculation of the index value are terminated, as the case may be.

In case of an Extraordinary Termination the Issuer will pay to the Investor a Cash Settlement in the Settlement Currency that shall be the fair market value of the Product, taking into account the event that led to the Extraordinary Termination, less any costs and withholdings levied onto the Issuer and/or any of its affiliates for unwinding its hedge positions, all as determined by the Calculation Agent in its sole discretion. Such amount shall be paid to the Investor 5 Business Days following completion and receipt in full of the proceeds for all disinvestments in all relevant hedge positions, as reasonably determined by the Calculation Agent in its sole discretion.

Stop Loss Event

The stop loss function aims to prevent that the leverage effect of the Index pushes the Certificate to a value below zero. A Stop Loss Event shall be deemed to occur if at any time on any Scheduled Trading Day from and including the Initial Fixing Date to and including the Final Fixing Date, Value_t is at or below the Stop Loss Level, as reasonably determined by the Calculation Agent. Following the occurrence of a Stop Loss Event, the Certificate is early terminated and the Issuer will in a timely manner and on a best effort basis under the prevailing market conditions unwind all risk reducing hedging transactions relating to the Issuer’s obligations under the Certificates and will pay to the Investor a Cash Settlement in the Settlement Currency that shall be the fair market value of the Product, less any costs and withholdings levied onto the Issuer and/or any of its affiliates for unwinding its hedge positions, as determined by the Calculation Agent in its sole and absolute discretion. Such amount shall be paid to the Investor 5 Business Days following completion and receipt in full of the proceeds for all disinvestments in all relevant hedge positions, as reasonably determined by the Calculation Agent in its sole discretion. However, **a total loss of the capital invested cannot be completely excluded if a Stop Loss Event occurs**. Further information can be found in the section “Significant Risks” below and in the Index Rule Book.

Taxation Switzerland

Swiss Federal Stamp Duty For Swiss stamp duty purpose, the Product is treated as analogous to a share/unit in a foreign investment fund. Therefore, primary and secondary market transactions are in principle subject to Swiss stamp duty (TK24).

Swiss Income Taxation (for private investors with tax domicile in Switzerland) For Swiss income tax purposes, the Product is treated as analogous to a share/unit in a foreign investment fund. The taxable income earned by the Product is not reported to the Swiss Federal Tax Administration. The taxable income is determined at the discretion of the Swiss Federal Tax Administration. The discretionary tax assessment is based on a return in line with the market, taking into account the asset classes in which the certificate assets are invested.

The tax treatment regarding the cantonal and communal income taxes can differ from the tax treatment regarding the Federal Direct Tax. But in general the income tax treatments are corresponding.

Swiss Withholding Tax The Product is not subject to the Swiss Withholding Tax.

On 1 January 2017 Switzerland has implemented the Automatic Exchange of Information in Tax Matters (“AEOI”) with the EU and Australia, Jersey, Guernsey, Isle of Man, Iceland, Norway, Japan, Canada and South Korea. Switzerland is also negotiating the introduction of the AEOI with other countries. In this context the EU Savings Tax for Swiss paying agents and the Final Withholding Tax with UK and Austria was repealed.

The tax information is a non-binding summary and only provides a general overview of the potential tax consequences linked to this Product at the time of issue. Tax laws and tax doctrine may change at any time, possibly with retroactive effect.

Investors and prospective Investors are advised to consult with their tax advisers with respect to the Swiss tax consequences of the purchase, ownership, disposition, lapse or exercise or redemption of a Product in light of their particular circumstances. The Issuing Parties and the Lead Manager hereby expressly exclude any liability in respect of any possible tax implications.

Any payment under this Product may be subject to withholding tax (such as, inter alia, withholding related to FATCA (Foreign Account Tax Compliance Act) or 871(m) of the US Tax Code). Any payments due under this Product are net of such tax. If an amount in respect of Section 871(m) of the U.S. Tax Code were to be deducted or withheld from interest, principal or other payments on the Products, none of the Issuer, any Paying Agent or any other person would be required to pay additional amounts as a result of the deduction or withholding of such tax, i.e. the Investor would receive a significant lower amount than he would have received without such deduction or withholding.

Product Documentation

The Indicative Termsheet includes the information required for a preliminary simplified prospectus and the Termsheet which will be available no later than on the Issue Date, as well as the Final Termsheet include the information required for a definitive simplified prospectus pursuant to article 5 the Collective Investment Schemes Act (“CISA”), as such article was in effect immediately prior to the entry into effect of the Swiss Financial Services Act (“FinSA”), but not a prospectus pursuant to article 40 of the FinSA or article 1156 of the Swiss Code of Obligations. No basic information document according to article 60 of the FinSA or any equivalent document under the FinSA has been or will be prepared in relation to the Products.

No prospectus has been reviewed or approved by a Swiss review body pursuant to article 52 FinSA, and the documentation prepared in relation to the Products may not comply with the disclosure requirements applicable to a prospectus approved by such a review body under the FinSA. The Termsheet contains a summary of information of the Product and is for information purposes only. The Termsheet contains a summary of information of the Product and is for information purposes only. **Only the Final Termsheet together with the Issuance and Offering Programme of the relevant Issuer valid as per the Initial Fixing Date containing all further relevant terms and conditions, as such is amended from time to time (the “Programme”), shall form the entire and legally binding documentation for this Product (“Product Documentation”),** and accordingly the Final Termsheet should always be read together with the Programme. Definitions used in the Final Termsheet, but not defined therein, shall have the meaning given to them in the Programme. **Even though translations into other languages might be available, it is only the Final Termsheet and Issuance and Offering Programme in English which are legally binding.**

Notices to Investors in connection with this Product shall be validly given in accordance with the terms and conditions of the Programme. In addition, any changes with regard to the terms and conditions of this Product will be published on the relevant Termsheet on www.leonteq.com under the section “Products” or, for listed products, in any other form as permitted by the rules and regulations of the SIX Swiss Exchange Ltd. Notices to Investors relating to the Issuing Parties will be published under the section “About us” on www.leonteq.com and/or on the web page of the respective Issuing Party.

Insofar as this publication contains information relating to a Packaged Retail and Insurance-based Investment Product (PRIIP), a Key Information Document in accordance with Regulation (EU) No 1286/2014 (PRIIPs Regulation) is available and can be obtained from www.priipkidportal.com.

II. Prospects for Profit and Loss

This product falls within the category "Participation Products". The profit the Investor could realize with this Product at redemption is unlimited (except for bearish products and products with the special feature "capped participation"). The redemption amount is directly linked to the performance of the Underlying(s), taking into account any participation rates or other features.

On the downside, especially if the product has forfeited any contingent capital protection (like e.g. a barrier, strike), the Investor is exposed to the negative development of the Underlying(s). **This might (even if a Stop Loss Event has occurred) lead to a partial or even a total loss of his investment.**

Please refer to the sections "Product Description" and "Redemption" for more detailed information on the characteristics of this Product.

III. Significant Risks

Risk Factors Relating to the Product

The downside risk of this Product is the same as for the Underlying, i.e. the Investor could lose the total investment even if a Stop Loss Event occurs. However, the Value of the Product might differ from the Underlying's performance due to fee adjustments (if applicable). Investors may lose a significant part or all of their investment in this Product.

General

The Product provides exposure to a discretionary Index managed by the Index Sponsor. The Index Sponsor has a significant scope of discretion in terms of the Index' composition and will determine the initial composition of the Index and subsequent adjustments thereof, excluding adjustments and substitutions made by the Index Calculation Agent in accordance with the Index Rule Book or as defined herein and save where a rebalancing request of the Index Sponsor has been declined by the Index Calculation Agent. The performance of the Index and hence of the Product depends, inter alia, on the quality of the Index Sponsor's decisions as regards the composition of the Index (excluding adjustments and substitutions made by Index Calculation Agent in accordance with the Index Rule Book or as defined herein). Investors need to do their own due diligence with respect to the Index Sponsor.

Index Success

Neither the Calculation Agent nor the Index Calculation Agent take any responsibility for the composition of, adjustment (excluding adjustments not due to a Non-Compliance Event and substitutions made by Index Calculation Agent in accordance with the Index Rule Book or as defined herein) to and the success of the Index.

Diversification of the Index

If there are no minimum diversification criteria for the Index, as defined in the Index Rule Book, the Underlying may comprise of one single Component.

Foreign Exchange Risk

The Investor in the Product may be exposed to foreign exchange rate risk depending on the composition of the Index.

Interest Rate Risk

The Investor in the Product may be exposed to interest rate risk depending on the composition of the Index and the Settlement Currency.

Value Risk

For reasons not necessarily attributable to any of the risk factors set forth herein (for example, supply/demand imbalances or other market forces), the prices of the Components of the Index to which the Product is linked, may decline substantially.

Early Termination Risk

The Issuer may call the Product in accordance with the provisions as set forth above, e.g. if a Stop Loss Event occurred (please refer to section "Redemption"). Such early termination may adversely affect the Investors' financial interests.

Illiquidity Risk

One or, if applicable, more of the Components of the Index might be or become illiquid over the life time of the Product. Illiquidity of a Component of the Index might lead to larger bid/offer spreads of the Product and/or might delay the acquisition, unwind or disposal of hedging transaction(s) or asset(s) or realization, recovery or remittance of the proceeds of such hedging transaction(s) or asset(s) which might implicate a postponed redemption and/or a modified redemption amount, as reasonably determined by the Calculation Agent.

Additional Risk Factors

Prospective Investors should ensure that they fully understand the nature of this Product and the extent of their exposure to risks and they should consider the suitability of this Product as an investment in the light of their own circumstances and financial condition. Products involve a high degree of risk, including the potential risk of becoming worthless. Potential Investors should be prepared and in a position to sustain a total loss of the capital invested to purchase this Product. Prospective Investors shall consider the following important risk factors and see the section "Risk Factors" of the Programme for details on all other risk factors to be considered.

This is a structured product involving derivative components. Investors should make sure that their advisors have verified that this Product is suitable for the portfolio of the investor taking into account the investor's financial situation, investment experience and investment objectives. The terms and conditions of the Product may be subject to adjustments during the lifetime of the Product as set out in the Programme.

Investors whose usual currency is not the currency in which the product is redeemed should be aware of their possible currency risk. The value of the Product may not correlate with the value of the Underlying(s).

Market Risks

The general market performance of securities is dependent, in particular, on the development of the capital markets which, for their part, are influenced by the general global economic situation as well as by the economic and political framework conditions in the respective countries (so-called market risk). Changes to market prices such as interest rates, commodity prices or corresponding volatilities may have a negative effect on the valuation of the Underlying(s) or the Product. There is also the risk of market disruptions (such as trading or market/exchange interruptions or discontinuation or limitation of trading) or other unforeseeable occurrences concerning the respective Underlyings and/or their exchanges or markets taking place during the term or upon maturity of the Products. Such occurrences can have an effect on the time of redemption and/or on the value of the Products.

Credit Risk of Issuing Parties

Investors bear the credit risk of the Issuing Parties of the Product. The Products constitute unsubordinated and unsecured obligations of the relevant Issuing Party and rank *pari passu* with each and all other current and future unsubordinated and unsecured obligations of the relevant Issuing Party. The insolvency of an Issuing Party may lead to a partly or total loss of the invested capital.

Secondary Market

The Issuer and/or the Lead Manager or any third party appointed by the Issuer, as applicable, intends, under normal market conditions, to provide bid and offer prices for the Products on a regular basis in accordance with the SIX Directive on Debt Securities with Specific Structures. However, the Issuer and/or the Lead Manager, as applicable, reserve the right to cease the posting of bid and offer prices upon the occurrence and for the duration of any exceptional market circumstances. In special market situations, where the Issuer and/or the Lead Manager is/are unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices may be temporarily expanded, in order to limit the economic risks of the Issuer and/or the Lead Manager.
